

# Sprint Report - CMPS 115 – Software Methodology

## **Sprint 1 Review**

(app name) SPACE

(team name) Team Voyager

Sprint due Wednesday Oct 19, 2016

Revision 1 on Saturday Oct 21, 2016

## **Work completion rate**

- User stories completed: 3
- Work hours completed: 20 hours/person
- Days during sprint: 3-4 days/week

## **Actions to stop doing**

In order to make working on team voyager more efficient, we need to stop setting unrealistic goals.

## **Actions to start doing**

In order to more effectively use our work time, we need to start having more scrum meetings where the scrum master takes note of what will be done, what has been done, and if any blocks exist. We also need to constantly update the burnup chart as a way to track progress.

## **Actions to keep doing**

In order to continue being efficient team voyager should continue to meet after class and working together. We should also continue doing paired programming.

**Work Completed**

- As a user, I want to create an account.
- As an owner, I want to post a parking spot listing.
- As a renter, I want to be able to view listings.

**Work not completed**

- As an owner, I want to be able to remove a listing.
- As a renter, I want to be able to check into a spot.
- As a renter, I want to be able to checkout of a spot.
